COMPANY HISTORY

hauke

In 2015, we started our business in the dog industry by creating dog accessories - HAUEVER.

Since 2022, we have focused solely on haberdashery, now known as HAUKE. We manufacture printed webbings and fabrics.

Hauke is a producer of webbings with designs provided by the client. We also assist in designing and preparing the designs for printing.

We also have an offer of some ready-made patterns and the service of patterns designing.

We currently provide leading producers of dogs accessories in Poland and in the EU. How about being one of them? :)

WHAT SETS US APART?

Soft and light webbings,
simultaneously
very durable

A durable
and expressive
print

We love pets!

50 meters is the minimum for one pattern.

SAMPLES ARE PREPARED FOR FREE!

You just need to send us files
and we'll prepare and send you the samples for free :)

The price includes a **double-sided** webbing print.
Webbings and fabrics are included in the price list.

PRINTED SMOOTH WEBBING

Our key product – polyester smooth webbing. It distinguishes itself by a very good print quality, even if it comes to the most minor details. It's **soft and light**, simultaneously very **durable**. It is perfectly subject to sewing, it will also work well in a leather craft workshop. It can also be provided with reflection.

An important advantage of our webbings is the fact that we **produce it by our own**. Also no new polyester fibres are produced to make them – they **are made from recycled** waste plastic bottles (polyester rPET).

Available widths: 15mm, 20mm, 25mm, 30mm and 37mm. Other widths are available to order. The webbing thickness is about 1 - 1.5 mm. Plain weave.

Except the smooth webbing, we also have a **cheeper and thinner webbing with similar properties** - the grosgrain webbing ribbons (below in the price list).

WHAT DO WE RECOMMEND SMOOTH WEBBINGS FOR?

Leashes, collars, harness for dogs, cats and other pets (harness webbings)

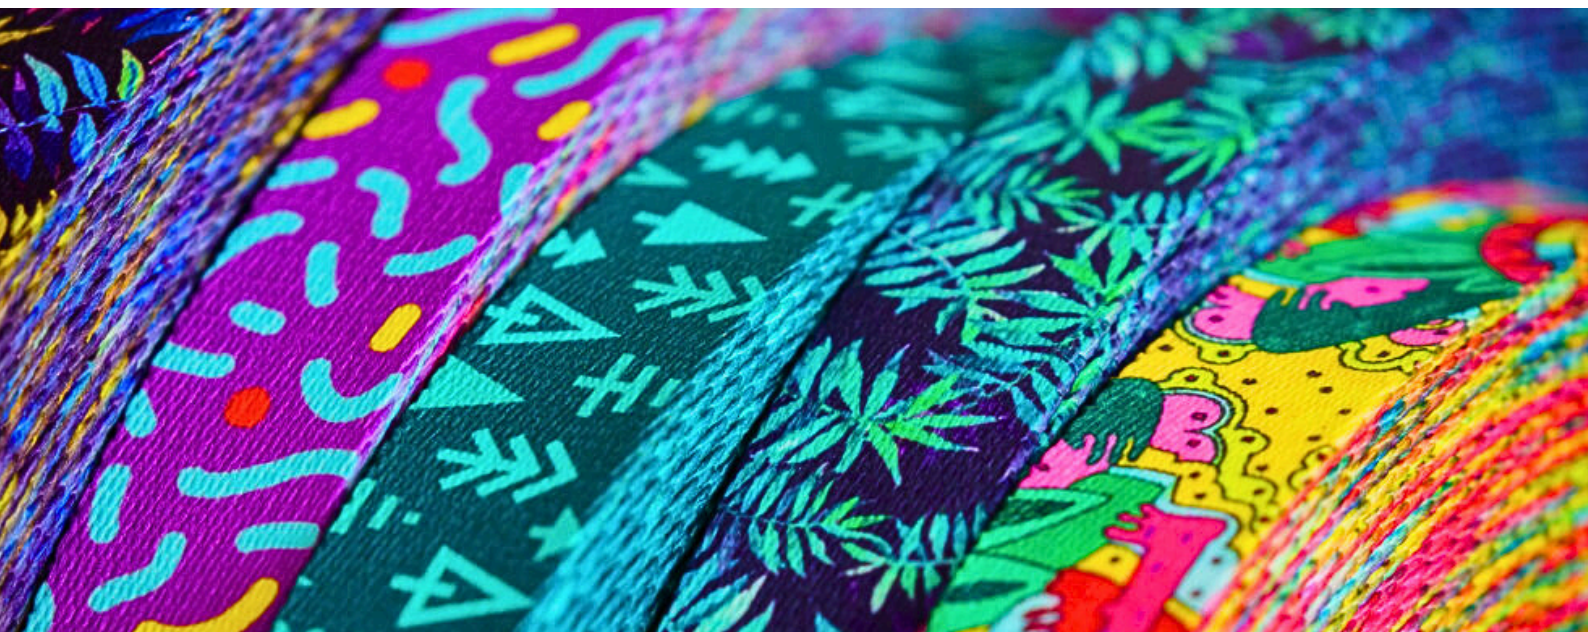

Lunges, reins, halters for horses

Trouser belts, straps for bags, cameras, backpacks, suitcases, sport exercises

Sledges and sunbeds seats, tents fastening

PRINTED SMOOTH WEBBING

Printed smooth webbing

WEBBING WIDTHS	NET PRICES FOR 1 METER IN EURO
15 MM	0.75€
20 MM	0.85 €
25 MM	1.00 €
30 MM	1.10 €
37 MM	1.20 €

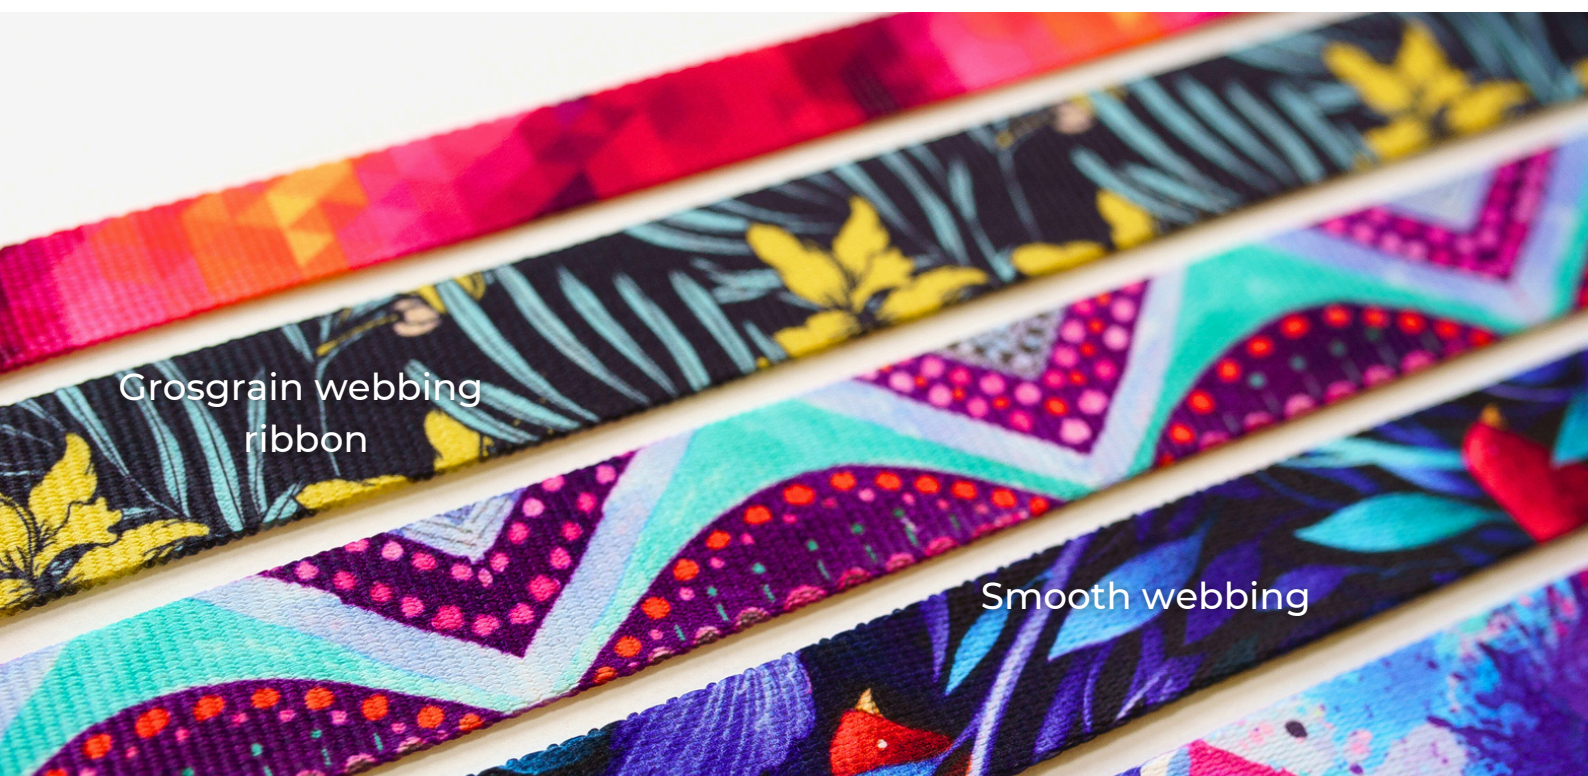

PRINTED GROSGRAIN WEBBING

The grosgrain ribbon can be recognised by its characteristic weave – crosswise stripes structure. It is a good alternative for our webbings with the plain weave – if you really need a softer, thinner webbing, which is more matte than satin, then this one is the right for you.

Available widths: 20mm, 25mm, 30mm, 37mm and 50mm. Other widths are available to order. The webbing thickness is about 1mm. Warp ribbed weave.

Printed grosgrain webbing ribbons

RIBBON WIDTH	NET PRICES FOR 1 METER IN EURO
20 MM	0.50 €
25 MM	0.77 €
30 MM	0.83 €
37 MM	0.92 €

Smooth webbing

PRINTED TUBULAR TAPE

Thick and durable tubular tape. It can be used as carrier webbing or as a cover for rubber with a diameter up to 8mm. It is pleasant to touch, smooth facture makes it very resistant to tearing off, which makes it perfect for e.g. dog toys production.

The fibres are made from recycled polyester.

Thickness 1-2mm. Available widths: 20mm, 25mm. Warp ribbed weave.

We recommend it for production of dog tugs and other dog toys, shock absorbing leashes, climbing accessories, conveyor belts, fastenings, lifelines.

Printed tubular tape

TAPE WIDTH	NET PRICE FOR 1 METER IN EURO
20 MM	0.95 €
25 MM	1.05 €

PRINTED ADVERTISING LANYARD

The advertising lanyard is soft and light haberdashery, mostly common in events and advertisement fields. Its shiny and satin surface additionally emphasises the quality of the print. It is a perfect carrier to place a logo, pattern or slogan connected with your company on it.

The fibres are made from recycled polyester.

Available widths: 15mm, 20mm, 25mm, 30mm

We recommend it for production of lanyards and other advertising gadgets, badge lanyards, key rings, clothes, bags and backpacks binding.

Printed advertising lanyard

LANYARD WIDTH	NET PRICES FOR 1 METER IN EURO
15 MM	0.60 €
20 MM	0.65 €
25 MM	0.75 €
30 MM	0.85 €

PRINTED SHOELACE WEBBING

Lace ribbons have a delicate, soft texture. Their smooth, even weave creates a sharp and vibrant print. They are the perfect medium for displaying a logo, design, or slogan related to your company.

The fibres are made from recycled polyester.

Available widths: 10mm, 15mm

We recommend them for the production of laces, lanyards, promotional items, sweatshirt strings, keychains, clothing trims, bags, and backpacks.

Printed shoelace webbing

LANYARD WIDTH	NET PRICES FOR 1 METER IN EURO
10 MM	0.65 €
15 MM	0.70 €

PRINTED OXFORD FABRIC

The Oxford fabric is a very durable, waterproof material with the basis weight of 200g.

It is made from 100 % polyester with some polyurethane layer applied on it.

It doesn't get creased and thanks to high resistance to breaking and ripping off it can be used for products that are exposed to heavy exploitation.

Beside that, the Oxford fabric stands heavy atmospheric conditions well, simultaneously, it is pleasant to touch and all the smudges of dirt can be easily washed up.

The fabric is produced from 100% recycled polyester fibres.

Beside its waterproof properties, it is a breathable fabric so it can be successfully used for sewing clothes, protective cases and the like.

The print of the fabric doesn't get worn-out, nor faded.

Examples of the usage of the Oxford fabric: outdoor, sport, military accessories, backpacks, bags (beach bags, tool bags, RTV accessories bags), bum bags, clutch bags, garden furniture binding, pet dens, dog harness and collar binding, jackets, waistcoats, baby prams upholstery, baby slings, car first-aid kits and mats, kitchen aprons, baby bibs, car, bicycle and motorcycle covers, picnic blanket, hammocks, beach windbreaks.
